Established quality since 1964

# The Smart Way to Continue Tradition

## New: Eppendorf ThermoMixer® F0.5/F2.0

For 50 years, Eppendorf has been your expert partner in the field of temperature control and mixing in small volumes. Eppendorf continues this tradition with the introduction of two new Thermomixers. The Eppendorf ThermoMixer F0.5 and F2.0 have a fixed block for 0.5 mL and 2.0 mL tubes, respectively. That makes these products the perfect choice for established routine applications using these consumable formats.

> The Eppendorf ThermoMixer® F0.5/F2.0 can be used with the ThermoTop lid to avoid condensation.
