

Profibus Sunrise Set PRODUCT INFORMATION

The perfect combination for PROFIBUS Start-ups!

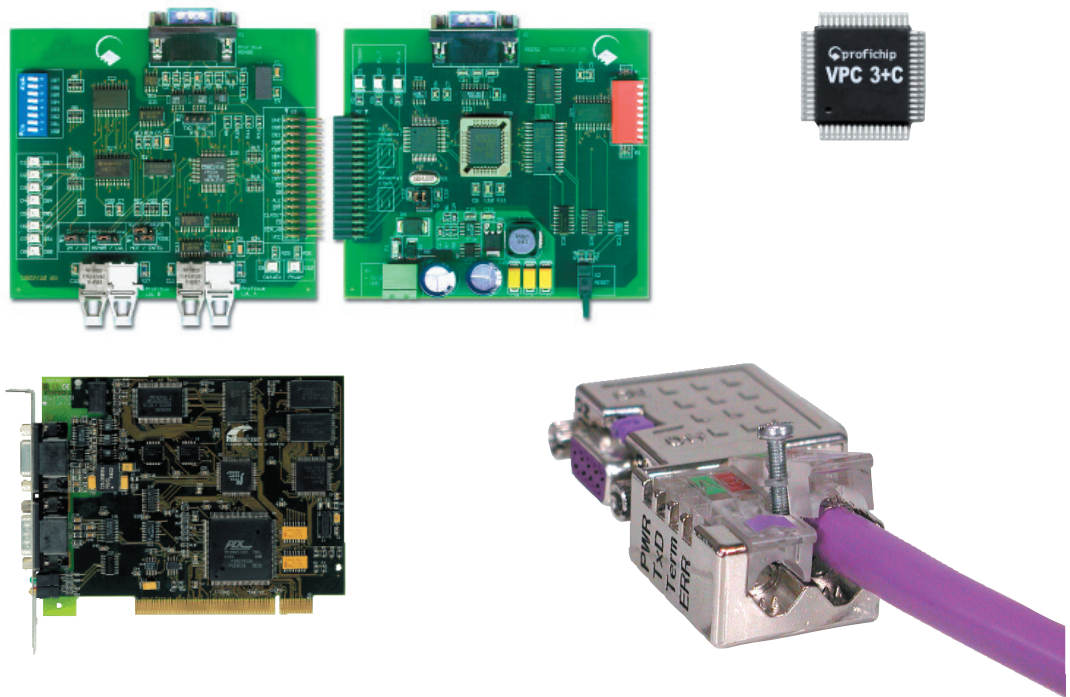

automation in silicon

 profichip®
The Clever Alternative

General Description

The PROFIBUS fieldbus standard worldwide is increasing its share in the widespread field of automation applications. Most of the potential users starting up with this are looking for a platform to launch their development - and fail due to a number of prerequisites missing. Basically, a fieldbus start-up needs hard- and software evaluation material to ease the first steps. This is, what profichip provides: with the **Sunrise Set**, interested developers find a complete package of all the components required for a successful beginning...

Set contents:

- 1 complete PROFIBUS DP **Slave unit** (EVA-Kit VPC3+C)
- 1 complete PROFIBUS DP **Master unit** (EVA-Kit Hilscher CIF 50/60-PB series)
- 4 additional Slave Controller **ASICs** VPC3+C
- 3 PROFIBUS **connectors** Easy Conn PB (90°, with diagnosis)
- 10m PROFIBUS FCC **cable** and
- (optional) **1 day (8hrs) at the profichip Development Center for training and/or testing** (max. 2 persons, no travel & accommodation cost included, extension time bookable)
