LIFT Ladder

GEDA BatteryLadderLIFT

The GEDA BatteryLadderLIFT is the newcomer among the compact material hoists: it conveniently transports any materials along the façade, without annoying tangled cables, and it is quick and easy to install. Whether refurbishment projects or a new build sites, tilers, painters, window installers, joiners, removal firms or DIYers – there is virtually no limit to the possible applications.

Assembled by only one person in less than five minutes, the compact innovation from GEDA uses a powerful 24 V/10 Ah Li-ion battery drive and different platforms to transport all types of materials up to 120 kg. At the press of a button, the convenient radio remote control sets the compact device in motion from 0 to 15 m/min.

Any height from 2.2 m to 10 m can easily be reached through a clever combination of the stepladder and/or lean-to ladder with the convenient ladder joining kit.

Technical data:

	120 kg
	10 m
	15 m/min
	24 V/10 Ah
