

SatinWrap[®]

Premium Quality Wrapping Tissue

2019 Stock Program

SUSTAINABILITY

SEAMAN PAPER IS CERTIFIED FOR CHAIN OF CUSTODY UNDER FSC, SFI & PEFC

50% pre-consumer recycled fiber used in our furnish
Average of 10% post consumer fiber in SatinWrap® line

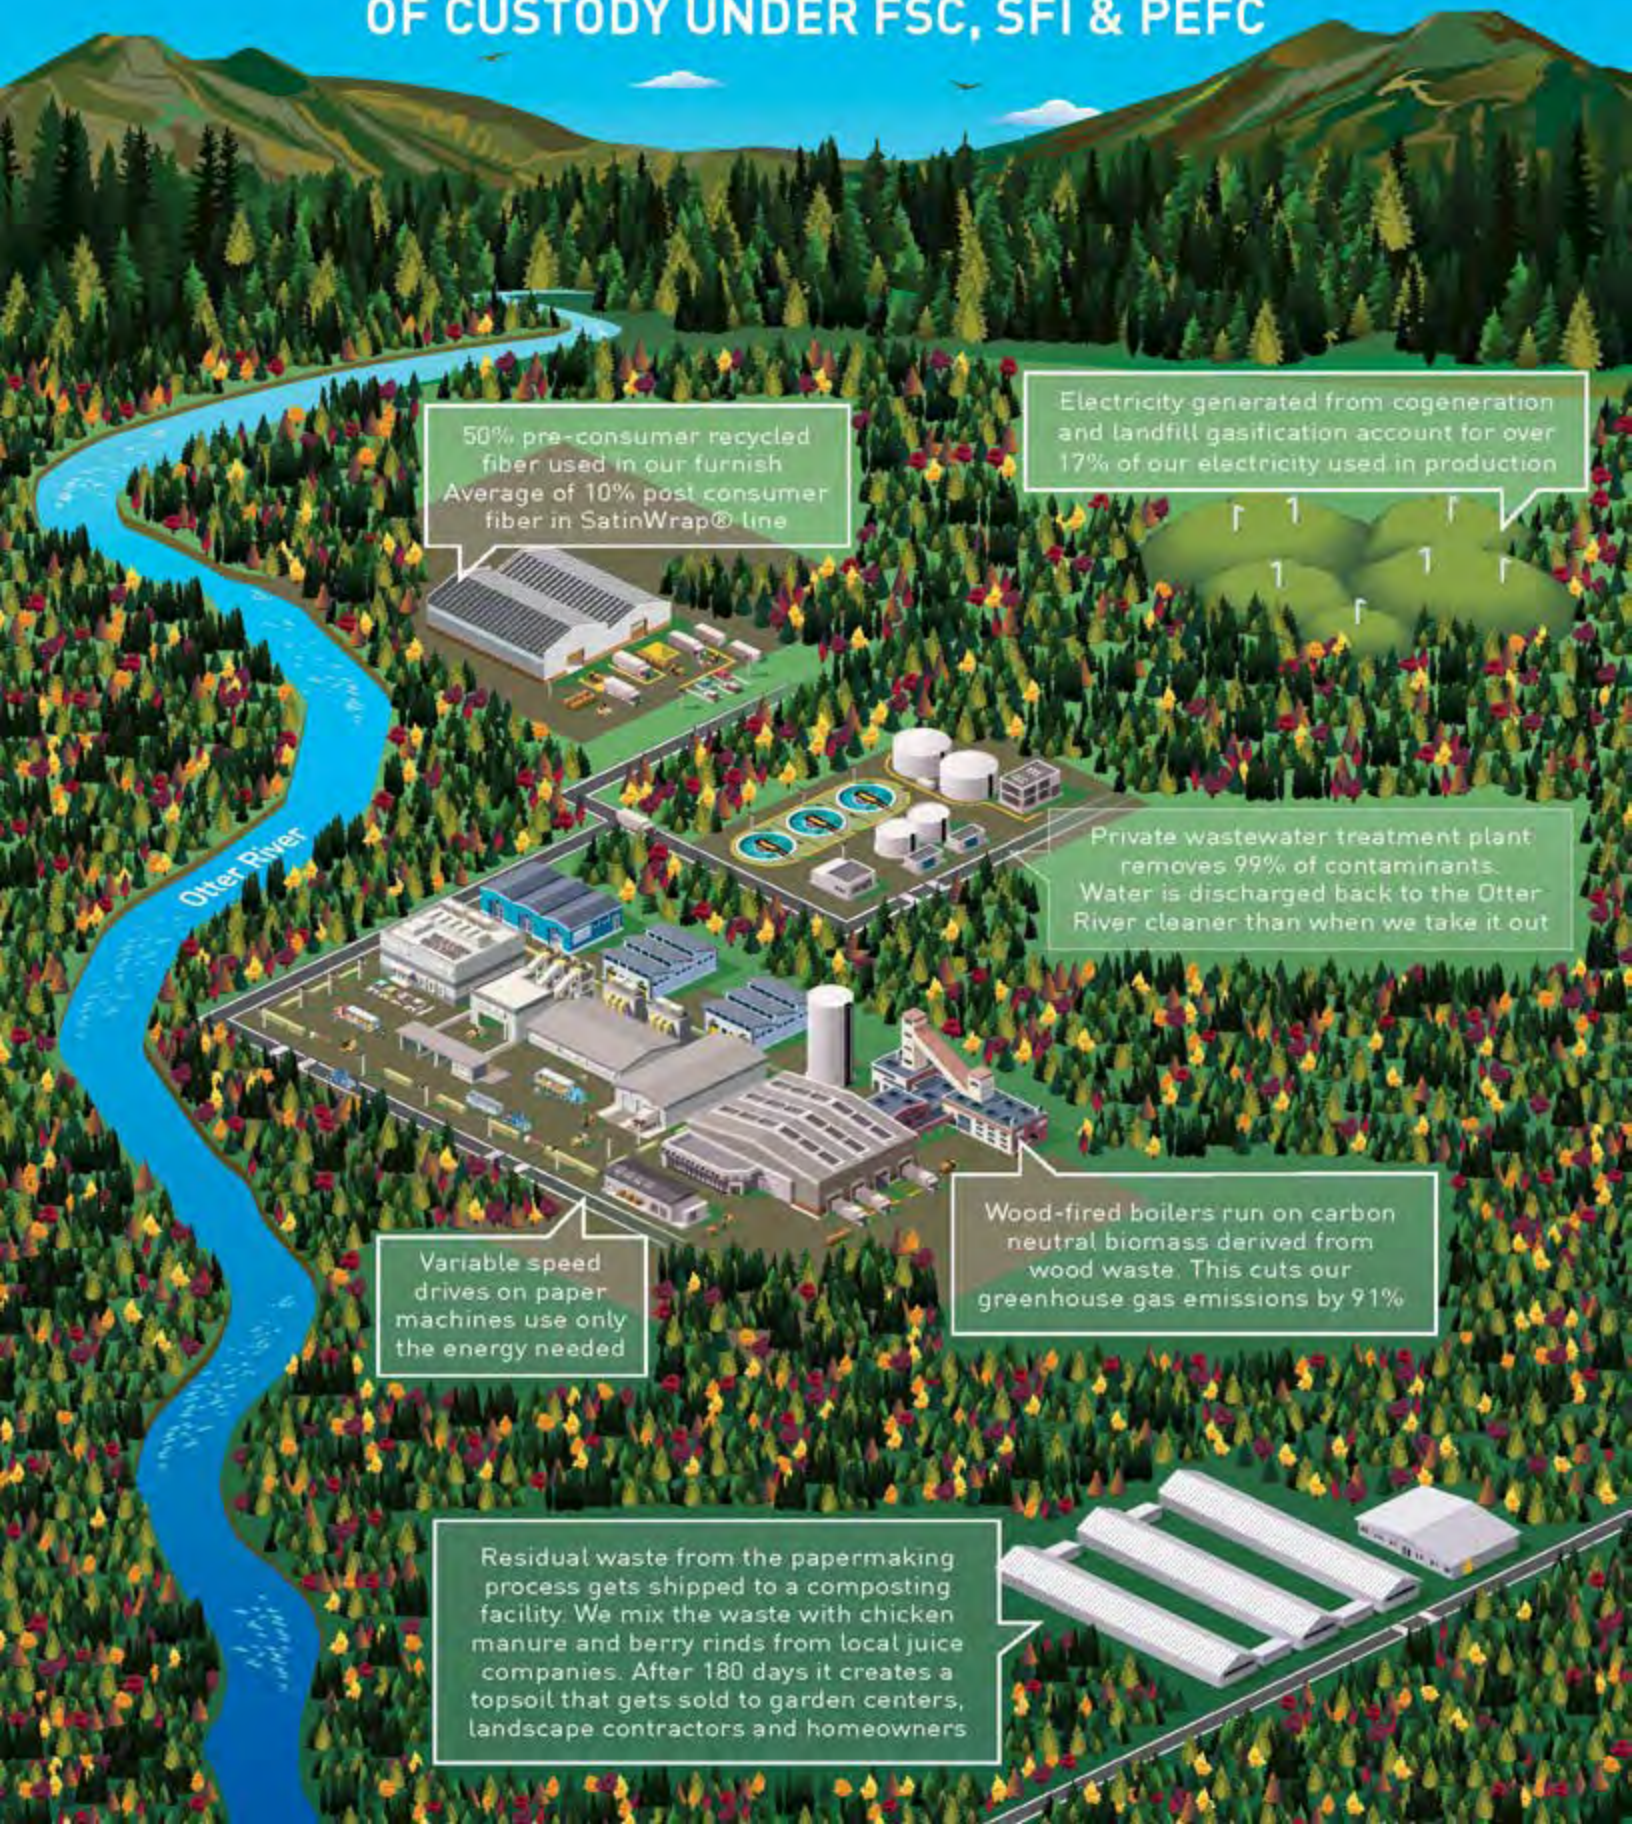

Electricity generated from cogeneration and landfill gasification account for over 17% of our electricity used in production

Private wastewater treatment plant removes 99% of contaminants. Water is discharged back to the Otter River cleaner than when we take it out

Wood-fired boilers run on carbon neutral biomass derived from wood waste. This cuts our greenhouse gas emissions by 91%

Variable speed drives on paper machines use only the energy needed

Residual waste from the papermaking process gets shipped to a composting facility. We mix the waste with chicken manure and berry rinds from local juice companies. After 180 days it creates a topsoil that gets sold to garden centers, landscape contractors and homeowners

SatinWrap[®]

Premium Quality Wrapping Tissue

We are proud to present our SatinWrap[®] premium quality wrapping tissue program for retail and luxury packaging.

As our **Old World Map** stock design indicates, the SatinWrap[®] program allows customers worldwide to utilize fashion colors, designer prints, or one-of-a-kind specialty tissues to create seasonal excitement while helping to promote brand and image.
