

# KÖDIGLAZE

## EDGE SEAL AND BONDING MEDIA

### FROM ONE SOURCE

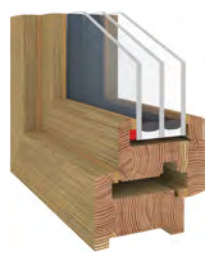

## KÖDIGLAZE

# SYSTEMS FOR DIRECT GLAZING

Window fabricators and system houses are using the technical and economic benefits of bonding the insulating glass units into the sash of the window. With Ködiglaze ADG, Ködiglaze P and Ködiglaze SDG KÖMMERLING have developed a product line for this innovative technology, which opens up a whole new spectrum of opportunities for window design. With comprehensive system solutions KÖMMERLING provide both the edge seal and the bonding media from one source.

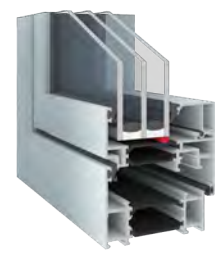

### Examples of Bonding

Overlap Bonding  
Ködiglaze ADG / SDG  
Wooden Window

Rebate Bonding  
Ködiglaze P  
PVC Window

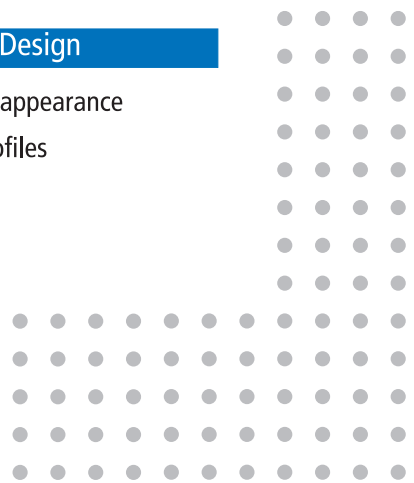

Glass Edge Bonding  
Ködiglaze SDG  
Aluminium Window

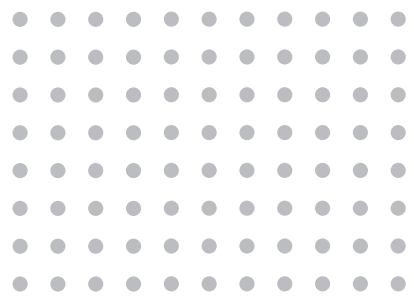

The illustrated applications are only examples of bonding. For your tailor-made solution please feel free to contact our professional project team.

## DIRECT GLAZING

# BENEFITS

Cost Reduction	Added Value	Design
- Less or no steel for reinforcement	- Improved intrusion resistance	- New visual appearance
- Less or no setting blocks	- Improved Uw value	- Slimmer profiles
- Reduced assembly time	- Reduced maintenance	
- Less adjustment after installation	- More light into the building	
- Automated production process		

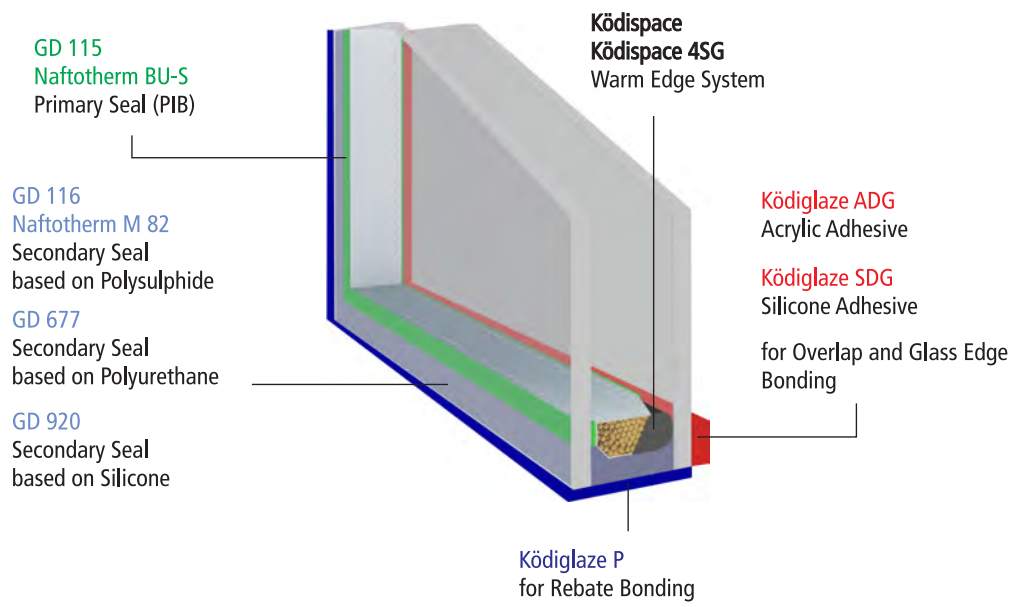

## INSULATING GLASS SEALANTS AND BONDING SYSTEMS FROM ONE SOURCE

An essential prerequisite for the successful realization of the benefits of this technology is a specifically designed and compatible system solution. The adhesive systems Ködiglaze ADG, Ködiglaze P and Ködiglaze SDG for overlap, rebate or glass edge bonding, must be compatible with both primary and secondary sealants. With longtime experience in the manufacturing of high quality adhesives and as a leading supplier of insulating glass sealants KÖMMERLING provide a one source solution for such systems. This ensures the highest level of safety for the system.

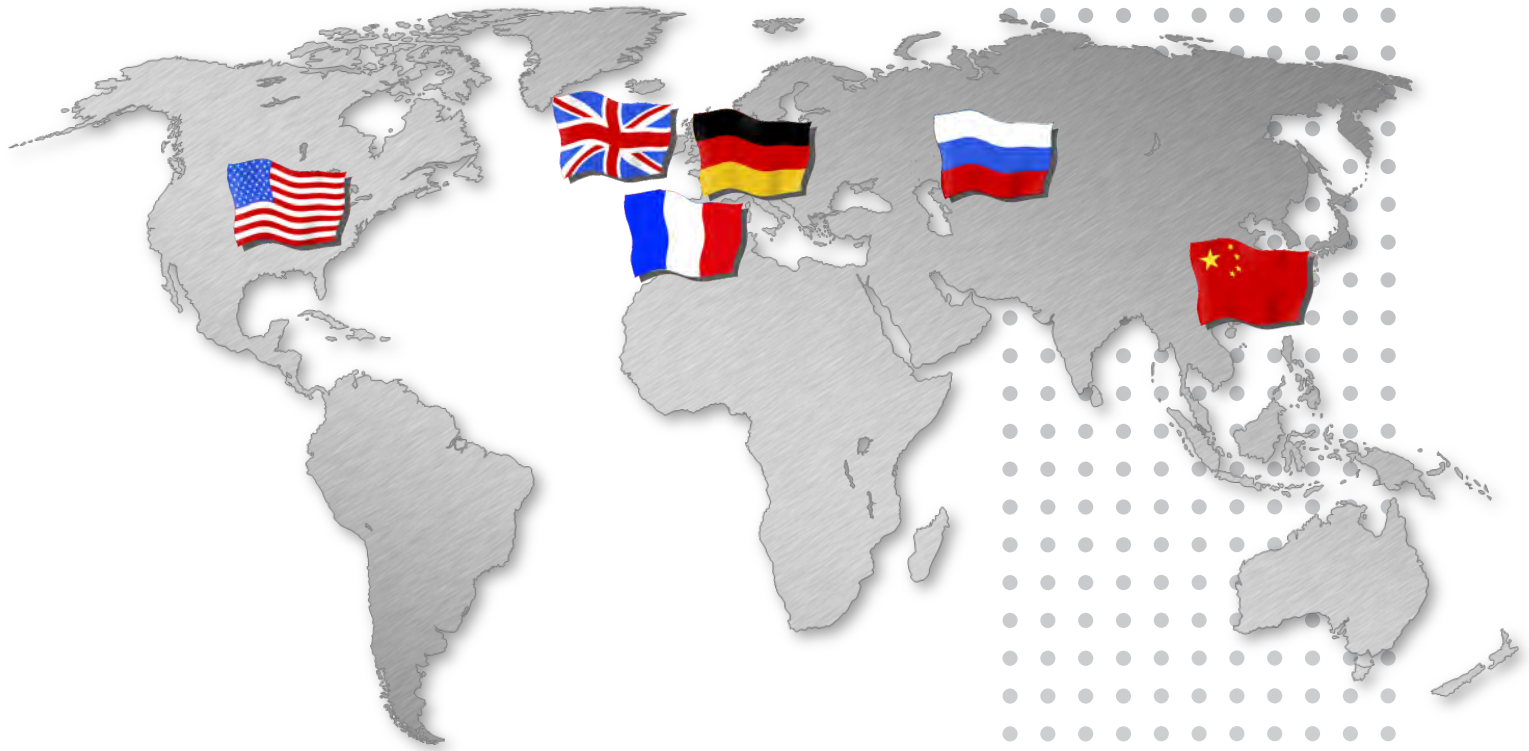

Allow KÖMMERLING to develop individual solutions and to suggest the best approach for your needs. KÖMMERLING consider themselves to be a supplier of system solutions, not only providing high quality products but also offering individual consulting, service and support. Use our experience both in IG manufacture and adhesive systems.
