3D applications

**Easy Triflex®** | Simple filling

Easy Triflex®: "easy" Design,  
easily to be filled  
► page 2.36

3D applications

**Triflex®** | Closed version

Triflex®: protection against dirt and  
chips, combined circle- and stroke-  
movements ► page 2.48

Circular movements

**TwisterChain®** | Snap-open

New guide trough system!

Crossbars can be opened on both  
sides, circular motions up to 60°  
► page 2.62

### Zip fastening E-Chains®/E-Tubes

Loop - E-Chains®  
**SnapChain**

Adjustable loops, to be opened  
along the outer radius. 2 sizes  
available ► from page 3.68

Fast assembly with zipper  
**Zipper | E-Chains®**

Zipper along outer radius,  
fast assembly  
► from page 4.4

Fast assembly with zipper  
**Zipper | E-Tubes**

Zipper along outer radius,  
fast assembly  
► from page 4.28

### Allrounder E-Chains®/E-Tubes

Small sizes - two-piece  
**E2 mini** | Snap-open

Snap-open along inner radius,  
double stop dog system  
► from page 5.66

Small sizes - two-piece  
**E2 mini** | Snap-open

Snap-open along outer radius,  
double stop dog system  
► Seite 5.70

Medium sizes - **E-Chain®** - two-piece  
**E2/000** | Snap-open

Snap-open along inner radius.  
High stability, quiet motion  
► from page 5.90

# Products

## Allrounder E-Chains®/E-Tubes

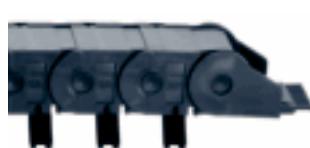

(Continuation of page 3)

Medium sizes - **E-Chain®** - two-piece  
**E2/000** | Snap-open

Snap-open along outer radius.  
High stability, quiet motion  
► from page 5.90

Medium sizes - **half E-tube** - two-piece  
**E2/000** | Snap-open

Snap-open along inner radius.  
High stability, quiet motion  
► from page 5.90

Medium sizes - **E-Tube** - two-piece  
**E2/000** | Snap-open

Snap-open along inner radius.  
High stability, quiet motion  
► from page 5.90

## E4.1 - Universal E4 modular kit, E-Chains®/E-Tubes for almost all applications

Standard - 4-piece, snap-open  
**E4.1** | Crossbars every link

New sizes!

Long travels, large unsupported lengths, snap-open along both radii ► from page 7.14

Standard - 4-piece, snap-open  
**E4.1** | Crossbars every 2<sup>nd</sup> link

Long travels, large unsupported lengths, snap-open along both radii ► from page 7.14

Standard - 4-piece - hinged, removable lids  
**E4.1** | E-Tubes, fully enclosed

New widths!

Long travels, large unsupported lengths, snap-open along both radii ► from page 7.14

## E4/00 - For new designs we recommend E4.1!

4-piece, snap-open along both radii  
**E4/00** | Crossbars every link

The E4.1 predecessor for smooth motion and easy assembly  
► from page 7.160

4-piece, snap-open along both radii  
**E4/00** | Crossbars every 2<sup>nd</sup> link

The E4.1 predecessor for smooth motion and easy assembly  
► from page 7.160

Standard - 4-piece - hinged, removable lids  
**E4/00** | E-Tubes, fully enclosed

The E4.1 predecessor for smooth motion and easy assembly  
► from page 7.160

## Protection against dirt and chips, snap-open E-Tubes

Snap-open along both radii  
**E2 E-Tubes** | R100

Snap-open on both sides.  
Excellent chip protection  
► from page 6.4

Snap-open along outer radius  
**E2 E-Tubes** | R

Removable lids along outer radius. Small pitch for smooth operation  
► from page 6.4

Snap-open along outer radius  
**RX E-Tubes** | RX40

**World premiere!**

Full chip protection without undercuts, projecting edges and gaps  
► from page 6.54

## E4/light - Low weight, economic and stable

4-piece, snap-open  
**E4/light** | Crossbars every link

Light and stable. Inner-/outer-link design - Save weight and money!  
► from page 7.122

4-piece, snap-open  
**E4/light** | Crossbars every 2<sup>nd</sup> link

Light and stable. Inner-/outer-link design - Save weight and money!  
► from page 7.122

4-piece - hinged, removable lids  
**E4/light** | E-Tubes, fully enclosed

Light and stable. Inner-/outer-link design - Save weight and money!  
► from page 7.122

## E4/4 - For new designs we recommend E4.1!

4-piece, snap-open along both radii  
**E4/4** | Crossbars every link

The E4.1 predecessor for long travel and side-mounted applications  
► from page 7.222

4-piece, snap-open along both radii  
**E4/4** | Crossbars every 2<sup>nd</sup> link

The E4.1 predecessor for long travel and side-mounted applications  
► from page 7.222

4-piece - hinged, removable lids  
**E4/4** | E-Tubes, fully enclosed

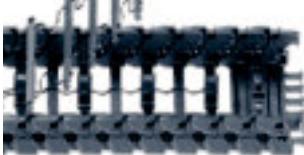

The E4.1 predecessor for long travel and side-mounted applications  
► from page 7.222

# Products

## Cleanroom E-Chains® - low noise, low vibration

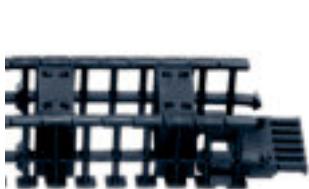

Superquiet in small spaces  
**E3 | E-Chains®**

New widths, new radii

 Snap-open along outer radius.  
Fast assembly - crossbars "on a string" ► from page 8.8

For highly dynamic applications, low-noise  
**T3 | E-Chains® - Band**

 Snap-open along outer radius.  
Low-price for simple applications ► from page 8.26

Low vibration, for cleanroom applications  
**E6 | E-Chains®**

New radius!

 No pin/bore connections, minimal abrasion, snap-open along both radii ► from page 8.38

Stable and rugged for heavy duty applications  
**Steel guide troughs**

 For special applications in rough environments. Huge product range ► from page 9.42

Lets light and dirt through  
**Tubular troughs | System RS**

 Resistant to dirt.  
Easy assembly and low price ► from page 9.66

Low price, easy assembly  
**Snap-in troughs | System SP**

 Very small trough.  
Easy assembly and low price ► from page 9.68

Long travels without guide troughs  
**AUTO-GLIDE**

 Self-guiding E-ChainSystem®.  
No guide troughs required ► from page 9.90

Upper run guide, unsupported travels 50m  
**Guidelok | horizontal**

 New in this catalog!  
Upper run guide for long travels,  
unsupported in critical chip areas ► from page 9.96

Secure vertical guidance up to 80 m  
**Guidelok | vertical**

 Simple, costeffective solution for vertical applications with lateral motion ► from page 9.98

## Guide Troughs - secure guide on long travels

Superquiet, low vibration, cleanroom  
**E6 | E-Tubes, removable lids**

Basic version - for general machinery  
**Aluminium "SuperTrough"**

Heavy-duty version - for rugged plant construction  
**Aluminium "SuperTrough"**

**29-52**  
No pin/bore connections, minimal abrasion, snap-open along both radii ► from page 8.38

**77-236**  
The igus® standard guide trough. Very simple, modular assembly ► from page 9.12

**87-236**  
Recommended for plant construction ► from page 9.12

### Support of the lower run

Support tray tool kit  
**Support tray**

New in this catalog!

Support tray tool kit for support of the lower run, price-saving  
► from page 9.70

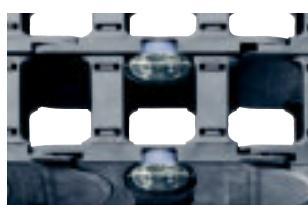

### Special solutions - long travels without guide troughs

Energy efficiency system for long travels  
**System P4 | Rol E-Chain®**

New size!

**32-80**  
Secure, virtually maintenance-free energy supply for long travels up to 800 m ► from page 9.78

**32-80**  
Reduction in drive power to less than 25 % for moving the E-Chain® ► from page 9.86

Enclosed plastic trough  
**LBT Flizz®**

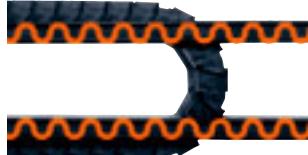

**24**  
High speeds and accelerations, price-saving  
► from page 9.100

Small E-Chains® in aluminum profile  
**Micro Flizz®**

**11-13**  
Master long travels with the smallest E-Chains® without failures  
► from page 9.104

Magnetic, floating, gliding  
**LeviChain**

**22,5**  
Magnetic, "floating" E-ChainSystem®  
► from page 9.112

# Products

## Project

Continuation of page 7)

Fast project planning, completely from stock  
**Modular system for projects**

Faster quotations,  
faster project planning

► from page 9.116

## Chainfix strain relief

For maximum pull forces, adjustable  
**Clamps** | Galvanized or stainless steel

New version!

Single, double and triple clamp housing incl.  
top/bottom and stacker saddle clamps.  
Galvanized or stainless steel (Material 1.4301)

► from page 10.4

For various possibilities  
**Multi-Clamps**

New in this catalog!

Chainfix-Adapter. Save assembly time, space  
and money. Compact and modular. For small  
outer diameters ► page 10.6

For top hat rail and C-profile  
**Nuggets**

Completely simple and universal cable fixation  
for top hat rail and C-profile

► page 10.10

Separators with integrated strain relief  
**Strain relief separators**

New size!

Separator with integrated strain relief -  
easy strain relief with cable tiewraps

► page 10.11

Strain relief for hoses  
**Bucks**

igus® blocks - Special strain relief for hoses.  
A Modular, space-saving system

► page 10.11

**igus® classics - older products are still available! - For new designs we recommend E2000**

Classic-Series  
**E2 medium** | bh snap-open

Classic-Series  
**E2 medium** | Snap-open

Classic-Series  
**E2 medium** | Snap-open

25-45  
bh snap-open.  
Double stop dog system  
► from page 12.4

25-45  
Snap-open along inner radius.  
Double stop dog system  
► from page 12.6

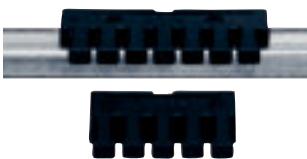

25-45  
Snap-open along outer radius.  
Double stop dog system  
► page 12.8

For universal tiewrap, bolted or clip-on  
**Tiewrap plates**

Clip-on connection for the C-profile  
**Tiewrap plates**

High tensile forces, modular, clip-on  
**Clips**

Chainfix tiewrap plates as single parts,  
suitable for assembly in the KMA mounting  
brackets ► from page 10.8

Tiewrap plates with clip-on connection for the  
C-profile. Easy to assemble and disassemble  
without any screws ► page 10.69

For E-Chains® with C-profiles, also suitable for  
assembly in the KMA mounting brackets and clip-  
on strain relief for crossbars ► from page 10.10

## PMA

Cable protection  
**PMAFLEX conduits**

Safety and sealing systems  
**PMAFIX connectors**

**PMA - Accessories**

Conduits  
► page 11.4

Connectors  
► page 11.4

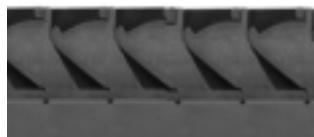

Accessories  
► page 11.4

## Special solutions

Increased inner height, crossbars every link  
**Series 38022** | E4/00

Increased inner height, crossbars every link  
**Series 383822** | E4/4

Special solution  
**E-Band**

 Based on Series 380 -  
version with increased inner  
height ► from page 12.12

 Based on Series 3838 -  
version with increased inner  
height ► from page 12.14

 Low-abrasion chain links are  
suitable for cleanroom applica-  
tions ► page 12.18

# News 2009

in this catalog and online

## Triflex® R (TRC/TRE)

New size: 125 ( $\varnothing$ 135 mm)

The now largest 3D igus® E-Chain®  
for very large fill packages as  
TRC- and TRE-version ► page 2.12

## Triflex® RS

Universal modul, new size: 100

The approved universal modul robotic  
movements now with Triflex® R size 100  
► page 2.22

## Triflex® RS - Adapter brackets for 43 robots from stock

43 adapter bracket types for many different robots  
and RS-modules from stock - please download 3D-data  
► [www.igus.eu/triflexconsole](http://www.igus.eu/triflexconsole) ► page 2.23

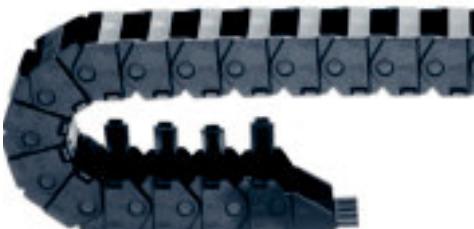

## Fixation to axis 6 for all robots

Easy and fast fixation to axis 6  
► page 2.23

## Line extension -

Two-piece E2 mini E-Chains®, Series B17i

Series B17 snap-open along outer  
radius with film-hinge ► page 5.76

## Line extension -

E2/000-Tubes

New widths for the E2/000-allrounder  
E-Tubes Series 3450/3480 ► page 5.118

**Triflex® R  
Quick exchange kit**

Quick exchange of hose packages  
within seconds, without tools

► page 2.21

**Triflex® R  
QuickLock protector**

Easy and fast assembly,  
no additional screws

► page 2.25

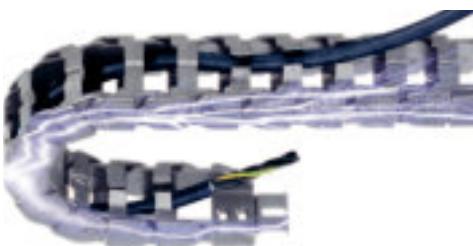

**TwisterChain® - Better guidance for  
circular motion - increase cycle life**

New Guide Trough system for igus® TwisterChain® .  
Reduce installation time and increase cycle life

► page 2.70

**Quick assembly with Easy Chain®  
Now available as ESD**

Cost effective and easy to fill E-Chains®  
for ESD/Atex applications

► chapter 3

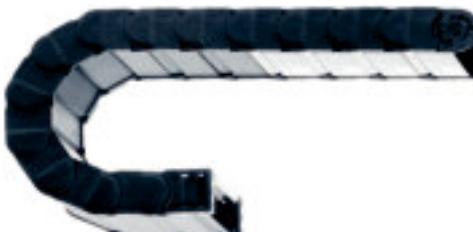

**Totally new, two-piece E-Tube RX  
with chip repellent design**

A world premiere from igus® - a totally redesigned E-Tube -  
repels chips, is extremely tight, and can still be opened!

► page 6.50

**E4 E-Tubes with snap-on lids  
made of Polymer or Aluminum**

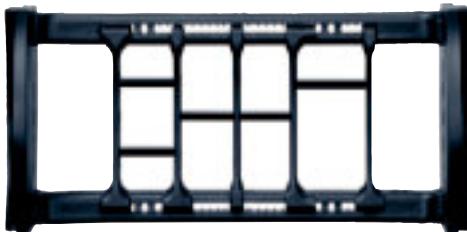

Another world premiere against chips. Lids with special seals  
are clipped onto an E-Chain®. All existing elements are still useable -  
absolutely chip-tight! ► [www.igus.eu/spaene](http://www.igus.eu/spaene)

# News 2009

in this catalog and online

## New: Interior separator kit for System E4.1

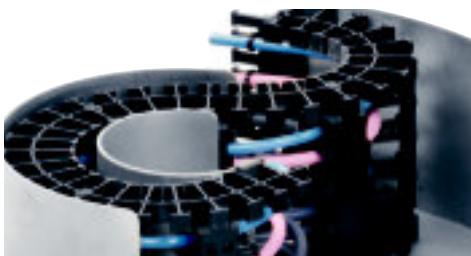

Guide cables precisely and increase cycle life.  
Cables last up to 4 times. Better interior separation  
with fewer parts ► page 7.12

## Crossbars with notch teeth for side-mounted applications

Notch teeth on the crossbar ensure safe fit against the notch separators,  
for side-mounted applications. The additional, plane surface scaling  
makes exact positioning of the separator easy ► page 7.12

## E-Chains® and modules for circular movement - ex stock

Small circular T3 modules for reverse bending radii (RBR).  
Available from stock as complete system.  
► [www.igus.eu/circularmovement](http://www.igus.eu/circularmovement)

## New widths and new radii for System E3

Small E-Chains® for highly dynamic applications.  
Inner heights: 10 - 22 mm. IPA Class 1 Certification  
(DIN ISO EN 14644, E3.15.040.075.0) ► page 8.4

## P4 Rol E-Chain® - new sizes for energy efficient power supply

New sizes complete the tool box for energy efficient power supply  
on long travels. Save up to ca. 60% power with P4 ► page 9.78

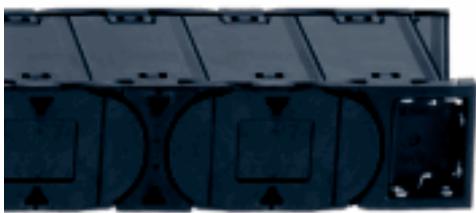

## Avoid chips on long travels Guidelok horizontal

Especially for long, gliding travels on machine tools, metallic chips are  
a problem. igus® Guidelok is a cost-effective solution ► page 9.96

**Line extension**

New widths for enclosed E4.1 E-Tubes

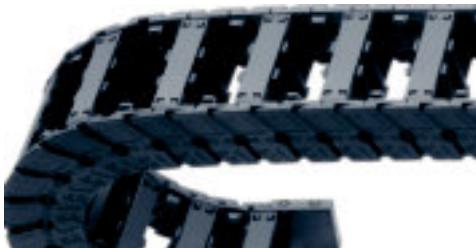

New widths for enclosed E-Tubes,  
ensuring protection against dirt and chips -  
Series R4.42 ► page 7.48 and R4.80 ► page 7.76

**Line extension**

Extension links for E4.80

"Infinite" E-Chain® and E-Tube width with  
igus® extension links. New: Extension links  
for Series E4.80 and R4.80 ► page 7.84

**New widths and new radii  
for System E6**

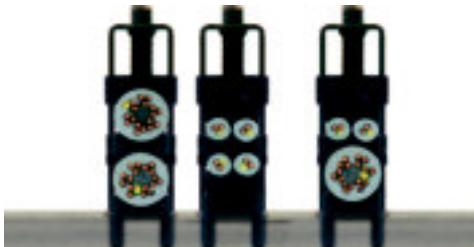

New radius for series E6.35. Wear resistant spring connectors ensure  
cleanroom compatibility and IPA cleanroom class 1 certification (DIN  
ISO EN 14644, E6.29.060.150.0.CR) ► page 8.50

**Support for the lower run  
Ready made Support Trays**

Simple one-piece support trays for the lower E-Chain® run. We  
supply the fitting E-Chain®, together with the support tray system.  
Ready to install onto your machine or application ► page 9.70

**Strain relief - even faster  
Chainfix clamp**

Improved stability and identification  
with correct install direction for all  
igus® CFX-clamps ► page 10.5

**Strain relief - more versatile  
Chainfix Multi**

Chainfix-Adapter for numerous applications.  
Reduced assembly time and space. Compact and modular.  
For small diameters, price-saving ► page 10.6

# News 2009

Chainflex®-catalog and online

## Cost effective PUR data cable Chainflex® CF112 PUR

Cost-effective data cable features high abrasion-resistant PUR jacket blend and a pressure-extruded PUR inner jacket. Oil resistant, flame-retardant, PVC-free, halogen-free, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## Cost-effective twisted pair data cable Chainflex® CF113 PUR

The cost-effective twisted pair data cable with a highly flexible overall copper shield. Oil resistant, flame-retardant, PVC-free, halogen-free, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## Torsion-resistant Chainflex® hybrid cable Chainflex® CFROBOT9

The highly wear-resistant, flame-retardant and halogen free PUR jacket blend protects the braiding elements, torsion angles of ± 180 ° with 1 m cable length ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## Torsion-resistant Chainflex® bus cable Chainflex® CFROBOT8

High abrasion-resistant halogen-free PUR jacket blend with stranded, dampening elements, flame-retardant ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## MTW, NFPA control cable Chainflex® CF150.MTW

Bundle twisted control cable according to NFPA- Standard. UL listed, oil-proof PVC jacket blend, flame-retardant, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## MTW, NFPA-cable Chainflex® CF160.MTW

Bundle twisted, shielded control cable according to NFPA- Standard. UL listed, oil-proof PVC jacket blend, flame-retardant, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## Harnessed TPE Koax cable Chainflex® CFKoax1

Koax cable for maximum load requirements, TPE outer jacket. Resistant to: oil, also to bio-oils, UV, Hydrolysis and microbe. 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

## Chainflex® CFKoax1.01 and 1.05 Connector-cabel combinations

Harnessed Koax cables for maximum load requirements in many connector-cable combinations ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

**Cost effective PVC servo cable  
Chainflex® CF210.UL PVC**

**Cost effective PVC servo cable  
Chainflex® CF270.UL.D PVC**

The cost-effective servo cable with oil-proof PVC jacket blend, UL recognized, shielded and oil-resistant and use in unsupported E-Chains®, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

The cost-effective, UL/CSA recognized, shielded and oil-resistant and mud-resistant PUR servo cable family. Highly wear-resistant, PVC- and halogen free servo cable, 10 x d ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

**Torsion-resistant Chainflex® motor cable  
Chainflex® CFROBOT6**

**Torsion-resistant Chainflex® motor cable  
Chainflex® CFROBOT7**

Unshielded, torsion-resistant motor cable for torsion of  $\pm 180^\circ$  over a length of 1 m. Highly wear-resistant, flame-retardant and halogen free www.igus.eu/chainflexnews

Shielded motor cable. The highly wear-resistant and halogen free PUR jacket blend protects the braiding elements, which are optimized for PUR jacket blend and stranded, dampening elements. ► torsion, torsion  $\pm 180^\circ$  with 1 m cable length. Flame-retardant ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

**Fiber optic cable  
Chainflex® CFLG.2LB**

**invis® Power  
Small PickUp**

Universal bus cable with highly wear-resistant TPE jacket blend, gradient glass fibers, PVC-free, halogen-free, 5 x d. High cycle counts and bending radii of only 40 mm ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

Inductive, contactless power transmission, small and light. 150 W peak capacity, 120 W continuous output. Output: 560 V DC ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

**Drive systems in 24-48 hours  
Harnessed power-, servo- and encoder cables**

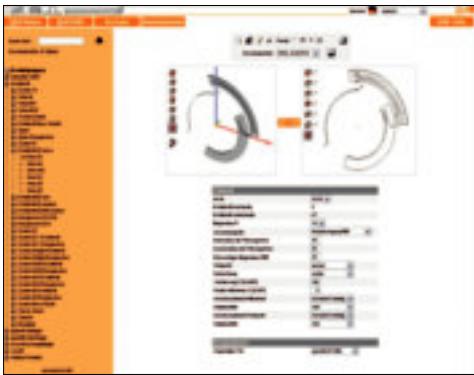

**Shielded initiators  
Chainflex® CF10.INI**

New for B&R, Danaher Motion, Heidenhain and ELAU, any required length available. Perfect service life even with small bending radii, PVC, PUR, TPE. High availability for short lead time ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

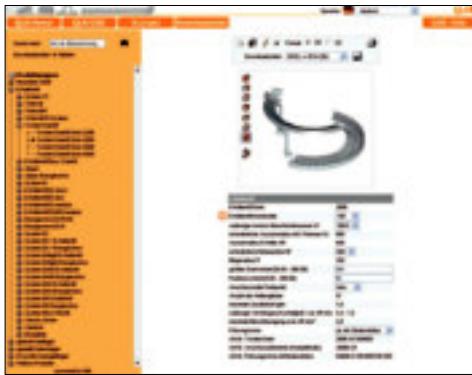

Shielded initiator with shield and a bending radius of 5 x d. The ideal solution for high speed applications, small bending radii, space restrictions ► [www.igus.eu/chainflexnews](http://www.igus.eu/chainflexnews)

Spiral moves in minutes  
Generate 3D-models online

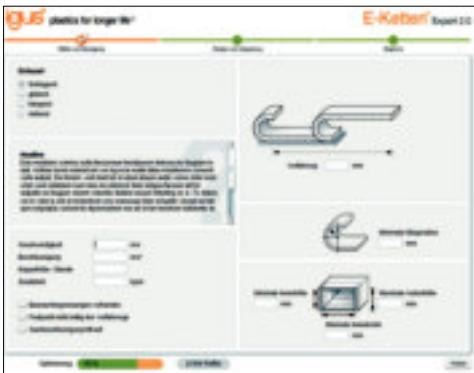

Generate fast complete 3D-models for spiral moves with RB®  
► [www.igus.eu/rb-configurator](http://www.igus.eu/rb-configurator)

Generate fast complete TwisterChain® 3D-models with guide troughs and accessories

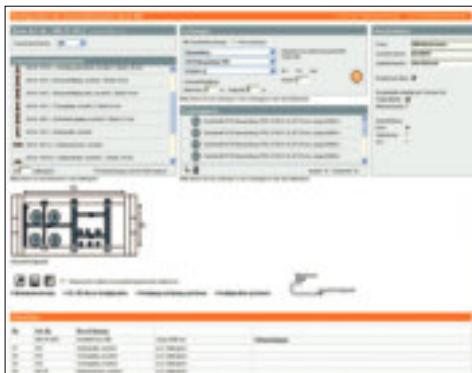

Calculate the E-Chain® length with entering only the rotation angle  
► [www.igus.eu/twisterconfigurator](http://www.igus.eu/twisterconfigurator)

E-Chain® Expert 2.0  
Easy layout of your E-Chain®

Calculation and layout of E-Chains® for unsupported, gliding, hanging and standing applications. Upon data entry on travel length, speed, acceleration and fill weight, the E-Chain® Expert recommends the E-Chain®, that fits your application ► [www.igus.eu/online-tools](http://www.igus.eu/online-tools)

Harnessing in minutes  
ReadyChain® Basic Configurator

Layout of complete E-Chains®, with interior separation, cables/hoses and strain relief. For registered customers/users the ReadyChain® Basic configurator is available online ► [www.igus.eu/online-tools](http://www.igus.eu/online-tools)

## QuickPin 2.0

### Online Pinout-Configurator

In only 3 minutes you choose out of 750 Chainflex® cables and 3,500 connector components, configure cables online, order directly and generate ePL AN electric P8 macro ► [www.iaus.eu/quickpin](http://www.iaus.eu/quickpin)

## Cycle life calculation for E-Chains®

With just a few clicks, you will find out the expected cycle life of an E-Chain®  
► [www.igus.eu/Echain-lifetime](http://www.igus.eu/Echain-lifetime)

**Quick search for industry solutions -  
Find a reference!**

More than 470 inspiring applications examples with E-ChainSystems® and polymer bearings. Browse through already implemented customer applications and filter them ►

[www.igus.eu/industryolutions](http://www.igus.eu/industryolutions)

**Individual customer catalog -  
Reduce processing costs!**

Now igus® can compose individual online catalogs from more than 80.000 products according to the customers desires. The administration takes place in the existing "myigus" customer system.

# Technical Details | E4/00 | E4/4

## Legend

- Standard
- Suitable to a limited extent
- ▲ Options
- Especially suitable
- \* In preparation / on request

## Opening principle

## Series / Product

## Inner height $hi$ [mm] + ø cable max.

## Inner width $Bi$ [mm] from - to

## Outer height $ha$ [mm]

## Outer width $Ba$ [mm] from - to

## Bending radius $R$ [mm] from - to

## E4/00 - For new designs we recommend E4.1!

### E4/00 - crossbars every link - snap-open from both sides

|      |     |       |           |     |           |            |
|------|-----|-------|-----------|-----|-----------|------------|
| 210* | 21  | ø 18  | 30 - 120  | 28  | 44 - 134  | 38 - 200   |

The screenshot shows a product page for 'igus® plastic for longer life'. It features a search bar at the top with the query 'igus® plastic for longer life'. Below the search bar, there's a navigation menu with links like 'Home', 'About', 'Contact', 'Search', 'Log in', and 'Logout'. The main content area displays a product card for 'igus® plastic for longer life' with a black image of the component. To the right of the image, there's a detailed description of the product, including its properties and applications. At the bottom of the page, there are several other product cards for different series like 'igus® plastic for longer life - 1000', 'igus® plastic for longer life - 2000', and 'igus® plastic for longer life - 3000'.

You miss a classic series in this catalog?  
At ► [www.igus.eu/classics](http://www.igus.eu/classics) you will  
find all igus® Classic series. There you  
can download the entire PDF-catalogue.

## Description

### System P4 Rol E-Chain® - energy efficient on long travels

Safe, maintenance-free energy supply system on long travels up to 800 m and more for outdoor cranes or conveyor systems. Energy efficient polymer E-Chains® and cables reduce consumption by up to 60%. With the right materials and clever design, the energy consumption can be drastically reduced.

### Rol E-Chain® - Rolling instead of gliding

Reduction of driving power down to 25% to move the E-Chain®. For very long travels with high fill weights. Due to the rolls, the friction coefficient of the system is very low - save money and energy.

### AUTO-GLIDE - Long travels without guide troughs

AUTO-GLIDE - special solutions for long travels without trough guides.

### Guidelok horizontal - upper run support, unsupported up to 50m

Upper run guide for long travels, self-supporting in chip areas. Unsupported travels up to 50 m are possible. Chips cannot get stuck between upper and lower run. Modular system with few parts.

New in this catalog!

### Guidelok vertical - For vertical energy supplies up to heights of 80 m

For vertical applications with lateral motion, igus® Guidelok offers a simple, costeffective and safe system solution! Keeps hanging E-Chains in line - no swinging sideways. No bouncing of E-Chains® in vertical applications with horizontal dynamics. For high speed, acceleration and noise reduction.

### LBT Flizz® - Enclosed plastic trough

In its entirety, this system encompasses the igus® Energy Chain®, LBT Flizz® guide trough and - as an option - fully configured igus® Chainflex® cables. The LBT Flizz® guide trough is a modular kit comprising extruded guide profiles and a supporting frame with continuous tubes providing stabilization.

### Micro Flizz® - Small E-Chains® in aluminum profile

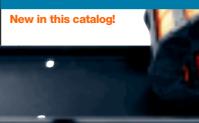

Compact, cost-saving complete system for safe guidance of energy, data and air. Maintenance-free alternative for power bar.

### LeviChain - magnetic E-ChainSystem®, floating, gliding

Long travel possible without laying the E-ChainSystems® on top of each other. Almost no abrasion and very low wear due to low-abrasion E-Chain® links (without pin/hole connection) as well as almost contactless movement of the E-Chain®

### For support of the lower run - Support tray

Simple one-piece support trays for the lower E-Chain® run, according with your requirements and specification. Your width, height and color - we supply the fitting E-Chain®, together with the support tray system. Ready to install onto your machine or application. Save on procurement and design time. ► page 9.70

| Triple clamp housing, incl. top/bottom saddle clamps and 2 stacker saddle clamp | 6 - 22 | 10.5 |
| Chainfix Multi clamps*  | 6 - 12 | 10.6 |

\*Standard material: galvanized steel. Also available as stainless steel version

(Material stainless steel: 1.4301)

## Tiewrap plates - for cable tiewrap universal, bolted or clip-on

|  |      |
|--|------|
| Option 1: Chainfix tiewrap plates as individual parts Series 2000 and 3000 | 10.8 |
| Cable tiewraps   | 10.8 |

## Chainfix-tiewrap plates - for strain relief with cable tiewraps for C-profile

|  |      |
|--|------|
| Option 2: tiewrap plates with clip-on connection for the C-profile | 10.9 |
| Option 3: clip-on tiewrap plates for opening or fixed crossbars    | 10.9 |
| Option 4: integrated strain relief for E2 Tubes - Series R         | 10.9 |
| Chainfix testresults   | 10.7 |

## Chainfix Clip - high pull forces, plug-in

|  |       |       |
|--|-------|-------|
| Available for all igus® E-ChainSystems with C-profiles and also suitable for assembly in the KMA mounting brackets and Clip-on strain relief for crossbars | 4 -24 | 10.10 |
|--|-------|-------|

## Chainfix nuggets - for top hat rail and C-profile

|   |        |       |
|---|--------|-------|
| Option 1: completely simple and universal cable fixation, for diameter with Ø 20 mm and Ø 30 mm | ≤ Ø 30 | 10.10 |
| Option 2: Fastening by clipping onto standard top hat rail                                      | ≤ Ø 20 | 10.10 |

## Strain relief separator with integrated teeth

|  |       |
|--|-------|
| Separator with integrated strain relief teeth- easy strain relief with cable tiewrap | 10.11 |
|--|-------|

## igus® blocks

|   |       |
|---|-------|
| Blocks - special strain relief for hoses. A modular, space-saving system. | 10.11 |
|---|-------|

# Technical Details | PMA

| Cable protection  | Product                 | Description                      | Page  |
