

LFGxx, EFxx

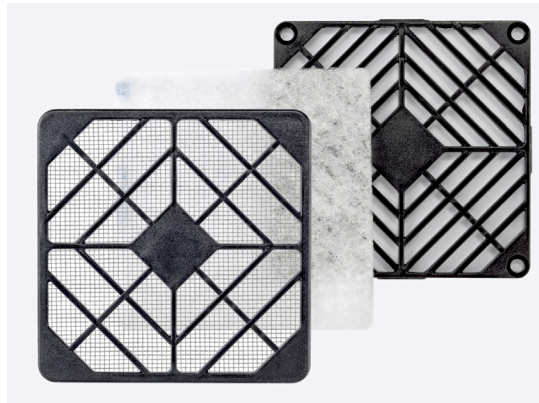

DUST FILTER IP 30

The dust filter of the LFG series offers an IP30 level of protection, according to publication IEC592. Its components are the filter frame, the clip-on lid and the filter blanket. By replacing the clip-on lid with an EMC-frame (silver), a cost effective dust+EMC-filter develops.

When the filter blanket is saturated with dust, it can be vacuum cleaned or washed with water and detergent and used again. We recommend regular clean-ups, depending on the dust contamination in the environment to avoid a decrease in performance.

Material: (ABC/PC) self-extinguishing, according to UL 94V-0.

LFG40-45, Dust filter three-part

Art. No.	Type	Fan Size [mm]	Dimensions LxWxH [mm]	Packing Unit [Pc.]
